

A HIGH-RESOLUTION TDC-BASED FRACTIONAL-N DIGITAL PHASE-LOCKED LOOP

A THESIS

SUBMITTED TO THE DEPARTMENT OF
ELECTRONICS AND COMMUNICATIONS ENGINEERING
OF KAFRELSHEIKH UNIVERSITY

IN PARTIAL FULFILLMENT OF THE REQUIREMENTS
FOR THE DEGREE OF
BACHELOR OF ENGINEERING SCIENCE

Ahmed Raafat Zidan
Mohamed Ibrahim Abdeltawab
Habiba Abdelrazek Basiony
Karim Mohamed Abomera
Abdalla Zaki Mohamed
Omar Nabil Abdelwahed
Abdulrahman Atef Ali

Contents

Abstract	i
Acknowledgement	iii
List of Tables	vii
List of Figures	ix
1 Phase-Frequency Detector	1
2 Loop Filter	3
3 Digitally Controlled Oscillator (DCO)	5
4 Divider	7
5 Conclusion	9
First Appendix Title	11
Second Appendix Title	13
Bibliography	15

List of Tables

List of Figures

Chapter 1

Phase-Frequency Detector

This design is based on [1].

Chapter 2

Loop Filter

Chapter 3

Digitally Controlled Oscillator (DCO)

Chapter 4

Divider

Chapter 5

Conclusion

First Appendix Title

Second Appendix Title

Bibliography
